When making clothes, I use the embroidery technic that brings life and that's how you give birth to new clothes!
Last time when hubby was captured by the bandits, I used my vine print clothes to save you!
So I'm embroidering many types of designs for all kind of situations.
Right, right! That was really amazing!
Now that we're talking about it...
The truth is that I don't really remember what happened then.
Now's the chance!

Can you, teach me that magic, too?
.. Eh?
Husband learning the Taoist magic. ?
Yeah!
I'm not skilled enough to teach someone and...
My talent is something useless...
But...
BURST
What are you talking about!

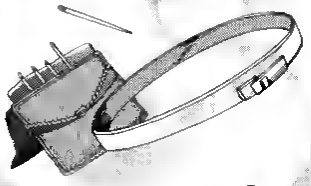
With wif...wife's Taoist magic, I've been saved! If you call that something useless, then
doesn't my life that has been once saved by your talent become useless?!
!! That's not it! I'm just trying to say that...
If that is so, then let's cut off this useless chat and get right to it. Please teach me.
Husband..
Husband is really a warm hearted person...

My husband was simply scared of my tattoo! It wasn't like he hated me.

Yes, I'll do so.

Mom! I think that my curse might lift sooner than I thought it would!

Here, take this first. This is my favourite set.



Hm? Sure.

The first step is to fit the fabric into the mold so that the fabric doesn't stretch too much.

You know how to string the needle, right?

Well... that's simple don't I just pull the string out through the needle hole?

Then the preparations are complete. And now comes the most important part.

Oh, is that so? What do I need to do now? Do I say some kind of spell or something?

It's something similar! Here! Watch me carefully and follow after me!

mumble
Ah, so boring.
...?!

So bored~ What should I do~ I'm getting crazy from this boredom... It's finally morning and there's still 15 hours till I go to sleep..

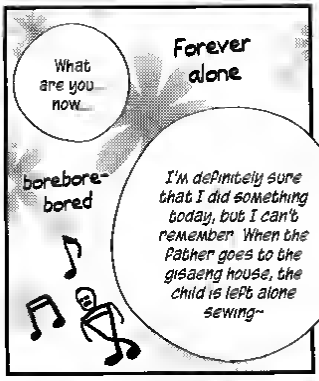
Um... hey..
Sewing today again... I embroidered a bird yesterday so let's go with a dog today No, I should do 12 terrestrial branches today~



What are you now...
Forever alone
borebore-bored
I'm definitely sure that I did something today, but I can't remember When the father goes to the gisaeng house, the child is left alone sewing~

O, birds, O, dogs, why can't you speak~ Even though I've sewn you lips and mouths~
Whoooosh
What are you doing...
and what's up with that weird song

Ah, as you can see, sewing...
So basically, I asked you to teach me Taoist magic, but why am I sewing?

Since when I was young, my father would only tell me that he'd teach me Taoist magic, but never did. And not only that, he'd even go to the gisaeng house every single day...

I, who was always left alone in the house, didn't have anything to do. But maybe it was my mother's blood that flowed through me influencing me? I was good at embroidery since I was a child.

I came out somehow but I don't know what animal I am.

And by sewing every day from boredom, someday, the embroidery that I sew came into life. Maybe the needles and threads noticed that I needed a friend.

... Then that talent was given to you while sewing alone at home...?
Ah... Yes...
THUMP
...If I want to use the magic... then I need to sew...?
THUMP
Th .. That's it, and the important thing is, when sewing, you have to wish for them to come alive.
THUMP
And if you make some beforehand, it's pretty handy...
THUMP

How can I do something like that!!
BURST

THROWS!
...What did you just... didn't you say that you won't say anything concerning my face anymore!
HA!
When did I?!

I told you that I won't say it's scary. But when did I say that I won't say anything about your face?
Now I won't avoid you and will say it right to your face! That you're ugly and look like a monster!
... DO I LOOK LIKE A STRAW BAG TO YOU, THAT DOESN'T TALK BACK?...
SNAP

T/N she referred him as a thing not really formal and nowhere near respectful
